TLEMSEN ANDALUSIAN CITY

Tlemcen is a land of springs. Etymologically, many people link the root *tilmas*, in the plural *tilmisân* which means sources, with the name by which we know it now.

The Sufism researcher and founding member of the League of Ulemas, Preachers and Imams of the Sahel (LOPIS), Kamal Chekkat indicated that the Fakih (jurisprudence expert), the reference imam and the Sufi Abou Mediène Chouaïb Al Ghaout had disseminated knowledge in Algeria and led the Algerians in the battle for the liberation of El-Quds in the 12th century.
